

Glyconutrients

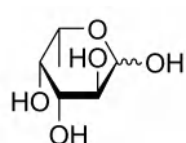

Glyconutrients play an important role in cell regulation, defense, protection, and cytothesis.

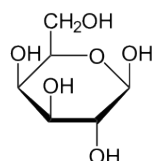

Mannose

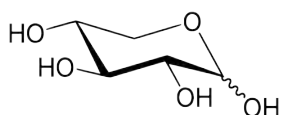

Fucose

Galactose

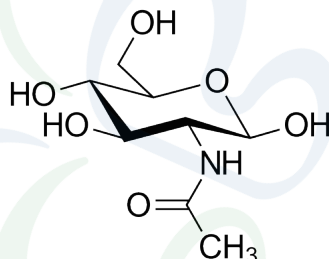

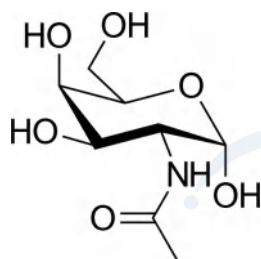

Xylose

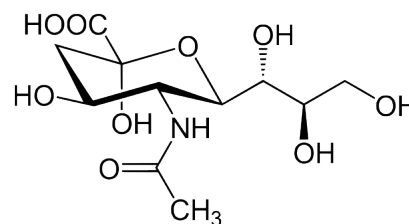

- Cell communication
- Normalization of immune system
- Antioxidant to lengthen life
- Stem Cells

N-acetylgalactosamine(GalNAc) N-acetylneuraminic acid(NANA)

N-acetylglucosamine(GlcNAc)

Human milk oligosaccharides (HMOs)

Recommended for infant formula and other nutrients

2'-FL (CAS No.: 41263-94-9)

Lacto-N-neotetraose (CAS No.: 13007-32-4)

Seebio Biotech (Shanghai) Co., Ltd.
