

Calcium malate, food grade

Product Information

Calcium malate, commonly known as calcium citrate, is widely used in food.

CAS NO. 17482-42-7

Product Name: Calcium malate

Other Names: butanedioate, 2-hydroxy-, calcium hydrogen salt (2:1:2); butanedioic acid, 2-hydroxy-, calcium salt (2:1); Calcium bis(3-carboxy-2-hydroxypropanoate); Calcium hydrogen 2-hydroxysuccinate (1:2:2); calcium 2-hydroxybutanedioate

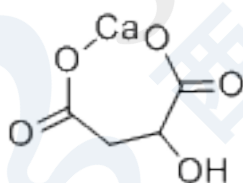

Mol. Formula: $C_4H_4CaO_5$

Mol. Weight: 172.15

Solubility: Slightly soluble in water

Grade: Food Grade

Packaging: 25kg or 50kg/drum

Specifications

Appearance: White crystalline powder

Content:	$\geq 98.0\%$
Loss on drying:	$\leq 19.0\%$
Chlorides(calculated as Cl^-):	$\leq 0.05\%$
Carbonate (calculated as CO_3):	$\leq 2.0\%$
heavy metals (calculated as Pb):	$\leq 0.002\%$
Arsenic (calculated as As):	$\leq 0.0003\%$

Applications

Food: used for chewing gum, chocolate, various sweets, beverages, milk, yogurt, bread, preserved fruit, biscuits, jam, Babao Congee and other foods.
